I become your dedicated AI architect, the person who understands your business from the inside, builds your systems, trains your team, and keeps pushing you forward as AI evolves. You focus on building great homes. I make sure your business runs at the speed of technology. Most businesses only get access to this level of AI thinking when they hire an in-house team. As your retainer partner, you get it for a fraction of that cost, and I am personally committed to your results.

- → Weekly business intelligence dashboard

→ A team trained and confident with AI tools

→ A business that works while you are not in it

MY COMMITMENT TO YOU

→ Plain English. No jargon, ever.

→ Your price is locked until the contract ends

→ Even if I deliver double the value, the fee stays the same

→ Monthly review so you always know exactly what has been built
