AI AUDIT PROPOSAL

Abi Daré

Prepared by Olusegun Dare | MakeMeAI Consulting Ltd

3 May 2026 | Confidential | team@makemeai.tech

£62,400+

Annual value identified from discovery session

6 areas

Speaking, Academy, newsletter, Foundation, finance, new business

2 weeks

From audit start to full automation roadmap delivered

What this audit is

Our discovery session gave us the big picture. This audit goes inside the detail. Over two weeks, I will work through every area of your operation, starting with your GoHighLevel account, your income streams, your Academy data, and your speaking pipeline. The output is a precise, prioritised automation roadmap with exact tools, exact timelines, and exact figures attached to each opportunity.

This is not a report for its own sake. Everything in it is built to be acted on. The audit becomes the blueprint for everything we build together from month one.

What the audit covers

GoHighLevel Account Audit

Full review of your existing CRM and website platform

You are already paying for GoHighLevel. The audit maps exactly what is set up, what is broken, and what is sitting unused. Email automation features, contact pipelines, newsletter sequences, and Academy checkout flows — all reviewed in detail.

- Full CRM pipeline review and contact organisation
- Newsletter setup and automation readiness check
- Academy checkout flow analysis and conversion gap identification
- Existing automations audited and any broken sequences flagged

Speaking Business and Inquiry Flow

Direct bookings, agent relationship, missed opportunities

Map the full journey from speaking inquiry to confirmed booking. Identify where direct enquiries are being lost, how the literary agent relationship can be made to work better, and what an automated speaking inquiry system would look like for your specific profile and fee level.

- Speaking inquiry capture process mapped end to end
- Direct booking pipeline designed to bypass unnecessary agent involvement
- Qualification and response automation scoped
- Integration with GoHighLevel CRM for full visibility

Newsletter, Academy, and High-Ticket Pivot

1,000 subscribers, 400 checkout abandoners, and the new coaching model

Your newsletter list and Academy checkout data are reviewed in full. The audit designs the email sequences that should have been running already, maps the conversion path from subscriber to student, and builds the infrastructure plan for your high-ticket pivot — one-off strategy sessions and 6-month coaching packages.

- Newsletter subscriber data reviewed and segmented
- Checkout abandonment sequence designed with exact email copy
- High-ticket coaching funnel mapped from enquiry to onboarding
- Academy product restructure plan to match your new direction

Finance and Tax Workflow

5 income streams, international royalties, expense tracking, accountant relationship

Map every income stream and identify exactly where money is being lost through poor tracking, late invoicing, and unresolved admin. Design a simple automated expense capture system and an income tracker that gives you and your accountant everything in one place.

- All 5 income streams mapped with current gaps identified
- International royalties situation reviewed including HMRC Certificate of Residence
- Expense capture system designed (photo to log, WhatsApp-based)
- Quarterly accountant pack template built
- Invoice reminder system scoped so nothing goes unsent again

The Louding Voice Foundation

Donor pipeline, school visits, supporter nurture

Review the Foundation's current supporter acquisition process and design an automated donor nurture pipeline that converts event attendees, social followers, and website visitors into long-term supporters without requiring ongoing manual outreach from you.

- Current supporter acquisition process mapped
- Automated donor nurture sequence designed
- School and organisation visit booking flow scoped
- Foundation digital presence assessment and quick wins identified

New Business Infrastructure

The worldwide strategy coaching brand — built from the ground up

You are starting a new coaching and strategy business. The audit designs the full infrastructure for it from day one: landing page structure, inquiry capture, CRM pipeline, onboarding sequence, and payment flow. You do not need to figure this out alone.

- New business model mapped and positioning defined
- Landing page and inquiry capture designed
- Client onboarding sequence scoped
- Integration with GoHighLevel CRM planned

Two-week timeline

WEEK 1**Deep Dive and Discovery**

- ✓ GoHighLevel account access and full review
- ✓ Income streams and finance workflow mapped
- ✓ Newsletter subscriber data reviewed
- ✓ Academy checkout data analysed
- ✓ Speaking inquiry process documented
- ✓ Foundation current state assessed
- ✓ New business vision session (30 minutes with you)

WEEK 2**Roadmap and Delivery**

- ✓ Full automation roadmap written and designed
- ✓ Each tool scoped with build time and ROI
- ✓ Priority order confirmed based on your goals
- ✓ Month 1 build plan prepared
- ✓ GoHighLevel quick wins identified and flagged
- ✓ Presentation session booked to walk through findings
- ✓ Retainer proposal delivered at close of session

What you receive

At the end of two weeks you receive a complete, actionable audit pack. Not a report to file. A blueprint to build from.

**Full Audit Report**

Every area covered in detail. Current state, gaps, and exact recommendations with ROI attached to each.

**Prioritised Automation Roadmap**

Every tool listed in order of impact. What to build first, what to build next, and why.

**Month 1 Build Plan**

Exactly what gets built in the first month of the retainer, with timelines and expected results.

**Presentation Session**

A live walkthrough of everything found. Plain English. No jargon. Questions answered in real time.

**Precise ROI Figures**

Based on your actual data, not estimates. Every opportunity costed with a conservative annual value.

**Retainer Proposal**

A tailored partnership proposal covering exactly what gets built, maintained, and delivered every month.

Investment

AI Business Audit

A single, fixed fee covering the full two-week audit across all six areas of your business. Everything described in this proposal. No hidden costs. No extras.

The audit fee is deducted in full from your first month's retainer if you choose to move forward. You are not paying twice.

Payment by bank transfer or card. Details provided on confirmation.

£500

One-time audit fee

The audit fee is **fully deducted from your first retainer month**. If you choose to move forward after the audit, you pay the retainer minus £500. You are not charged twice for the work done in these two weeks.

What happens next

Today

Confirm and pay. Audit begins within 24 hours.

Week 1

GoHighLevel access shared. Deep dive begins.

Week 2

Roadmap delivered. Presentation session held.

Ready to get started?

Reply to this proposal and I will send you payment details and the GoHighLevel access request. The audit starts within 24 hours of payment confirmation.
